The first leaf brings fame, the second one – good luck, the third one – faithful love, and the last one – good health. The elephant is known to attract lucky stars. From time immemorial the horseshoe has been believed to bring prosperity, good fortune and success. Thus, the recipe for happiness is simple: eat a four-leaf clover, find a horseshoe, and greet a baby elephant. From now on... it can all be done at once!

### **About the coin design:**
