- Coin Finish: Proof
- Coin Weight: 186.6 g
- Coin Diameter: 54 mm x 16 mm x 21 mm
- Coin Denomination: \$30
- Year of Issue: 2016
- Coin Mintage: 600
- Country of Issue: Niue

### **Coin Story**

Vesuvius is one of two active volcanoes located on the European mainland, and one of the five most dangerous and oldest volcanoes in the world. An exceptional accomplishment of contemporary coinage—the only one of its kind silver coin in the shape of a volcano—is the embodiment of pure innovation! Its extraordinary design and shape emblematically reflect the turbulent history of the ancient city of Pompeii and the lava—sputtering mountain towering over it.

Your pure silver coin is ornately decorated with Roman mosaic motifs and the images of Bacchian rites from the Villa of the Mysteries in Pompeii.
